ADVERTISING PROMOTION

Luke Harrop

Luke grew up on the family farm at Paskeville, before completing a Bachelor of Agriculture at the University of Adelaide.

He looks forward to making an eventual transition into branch agronomy and having his own group of clients.

Luke is also interested in football, cricket and golf.

"I look forward to expanding my agronomy knowledge, while building strong relationships in the industry and community," he said.

Luke is based at Kadina, where he will be performing a number of support agronomy roles, including working under Chris Davey and Darryn Schilling, and assisting the research and development team with trial work.

James Williamson

Originally from northern Yorke Peninsula, James completed school at Kadina Memorial High School, and then started working locally in the service industry.

He looks forward to learning about the big and booming agriculture industry, within his role as salesperson at the YP AG's Kadina branch.

James' friendly personality and outgoing style will complement the sales team on the front counter there.

James aims to get an in-depth understanding of the farming industry and all of the people who keep it going, while still enjoying his footy at Bute and playing basketball for Kadina.

Luke Hoare

YP AG welcomes Luke Hoare back onto Yorke Peninsula at its Yorketown branch.

Luke went to school at Yorketown, and later Immanuel College, and then worked at a forklift company in Adelaide, servicing and repairing forklifts and telehandlers.

Luke looks forward to being a part of a business that treats you like a second family, and also engaging with the people within his local community.

He wants to gain all the knowledge he can working under Brad Twartz at Yorketown, with the aim of becoming a reliable and hard-working boom spray technician.

Football, basketball and cricket are some of Luke's interests.

"Our Agronomy Is The Difference"

There's always better value at CRT.
